

Turf Blue® HGT®

Quality Blends of Kentucky Bluegrass

- Very rapid germination and establishment
- Forms a uniform medium textured turf
- Excellent color and overall turf performance
- Superior resistance to Summer Patch

Turf Blue HGT features the very best Barenbrug Kentucky bluegrass varieties, including 35% Barvette HGT. Quick to germinate with fast establishment, these blends are ideal for use in all areas of Kentucky bluegrass adaptation, including the Turf Transition Zone.

Providing both ideal sports turf and recreational turf, Turf Blue HGT features outstanding traffic tolerance, wear recovery, and exceptionally strong resistance to Summer Patch. With early spring green up and strong summer performance Turf Blue HGT can be counted on to provide year round bluegrass quality.
