

Water Saver with RTF

The Only Seed You Will Ever Need

- Use 30% less water
- Contains RTF rhizomatous tall fescue
- Self-repairing turf, fills in bare spots
- Grows great in sun or shade
- Deep rooting
- Establishes quickly
- Re-sealable mylar bag
- Available in 1.5, 5, 10, 25 and 50 lb bags

Water Saver with RTF is a special blend of Turf Type Tall Fescues selected for superb color, texture, disease resistance and mobility. Its deep rooting system enables Water Saver to tolerate drought and heat exceptionally well. Your Water Saver lawn will grow beautifully in sun or shade allowing you to mow close and decrease your lawn maintenance. Best of all, you'll use substantially less water to maintain the richness of your Water Saver lawn.

All Other Fescues

Water Saver with RTF

Unlike all other fescues, revolutionary RTF®

- Repairs itself
- Fills in bare spots
- Produces a thick, even lawn in sun or shade
